This Addendum is issued to all registered plan holders pursuant to the Instructions to Bidders and Conditions of the Contract. This Addendum serves to clarify, revise, and supersede information in the Project Manual, Drawings, and previously issued Addenda. Portions of the Addendum affecting the Contract Documents will be incorporated into the Contract by enumeration of the Addendum in the Owner/Contractor Agreement.

The Bidder shall acknowledge receipt of this Addendum in the appropriate space on the Bid Form.

Please direct any questions regarding the information in this addenda and the project to Newkirk Novak Construction Partners.
**Specific scope of work to be performed:**

Provide all required labor, material, equipment, permits, freight, labor, and applicable taxes necessary for the Glazing Scope of Work complete as set forth in the drawings and specifications provided by Hollis + Miller Architects on August 31st, 2023, and all other applicable sections of the project manual and all other subcontract documents identified.

- Division 00
- Division 01
- **024100 – Selective Demolition (As Applies)**
- 076200 – Sheet Metal, Flashing, and Trim
- 079200 – Joint Sealants (As Applicable)
- 084113 – Aluminum Frames Entrances and Storefronts
- 085613 – Transaction Windows
- 087100 – Door Hardware (As Applicable)
- 088000 – Glazing

**JOB SPECIFIC SCOPE INCLUDES** (but is not limited to):

1. All items per Master Scope of Work.
2. Provide all glass and glazing including, but not limited to: storefronts, aluminum entries, clear fully-tempered float glass, laminated security glass, insulated glass, insulated fully-tempered glass, applied security films, fire protective glass, etc per the Contract Documents. The General Trades contractor will be responsible for all framed mirrors.
3. Provide all sill, jamb, and head flashing / counter flashing at aluminum windows or storefront systems, break metal, aluminum, metal trim, supports, embedded items in concrete/masonry, frames, brackets, clips, anchors, fasteners, etc. needed for this scope of work as shown on drawings, or required by the manufacturer.
4. All joint sealants required within the glazing systems.
5. Coordinate final electrical and security connections with corresponding trades.
6. Provide and install all hardware at all aluminum doors.
7. Temporary construction cores for all hardware installed by this scope of work during construction and removed as directed by Contractor.
8. All openings to be field verified by this scope of work.
9. Include removal of temporary protection at exterior window systems prior to glazing systems installations. Temporary protection materials to be disposed of on-site dumpersters provided by Contractor.
10. Remove all labels from glass.
11. Hardware required at Aluminum Doors is by this Contractor. The General Trades Contractor to provide all lock cores for all aluminum doors. All electronic access control hardware and low voltage wiring to be provided by the Electrical Contractor. Electrified panic devices / strikes are not considered access control and must by installed by this Contractor, with wiring by others.
12. Provide pathway and pull strings in doors/frames where access controls are required.
13. Provide doors that require electric operators with a single point of connection for electrical contractor to connect to. If doors require to be tied into Fire Alarm System that also will be a single point of connection for electrician.
   a) Internal power and fire alarm wiring from a single point of connection would be by this package.
