During these class times, you will have different ways to connect with your teacher:

- Your teacher can use Zoom to meet with the whole group to provide a brief lesson before having you complete an activity.
- Your teacher can create an open office time so you can ask questions about your work as needed.
- After lunch, students will have the afternoon to work on their class work or catch up on assignments they haven't completed yet.

Check Canvas for specific details, Zoom links, tasks, & assignments.
