

ACE Mentoring

Wednesdays 3:30p-5:30p

Sponsor

Gary Pierson, gary.pierson@lps53.org

Mission

Enlighten and increase the awareness of high school students to career opportunities in architecture, construction and engineering and related areas of the design/construct industry through mentoring; and provide scholarship opportunities for students in an inclusive manner reflective of the diverse school population.

Goals

The ultimate goal of the ACE Mentor Program is to motivate more high school students to pursue careers in the design and construction industry. It achieves this goal in three ways:

1. Offering a stimulating educational program that introduces students to some of the basic skills and processes needed to design and build a structure;
2. Informing students about different career paths in the design and construction industry through presentations by mentors and others;
3. Providing scholarships to students to encourage and facilitate their pursuit of post-secondary education related to the building industry.

Community Service

TBD

Planned Activities

Various activities planned by Architects and Engineers.

Membership

Open to all Liberty High School students; students with Ds or Fs may not miss school
Limit: 30
