ELEMENTARY LEARNING SCHEDULE (PreK–5)

Elementary students (PreK–5) choosing the face-to-face option will continue to be provided face-to-face learning opportunities at their home school five days a week. Class sizes will be kept at a number that allows us to adhere to social distancing recommendations. Elementary students choosing our Liberty Virtual School (100% online) option will continue to be offered this learning model during second semester.

- One change for elementary in-person and virtual learners during the second semester is that elementary schools will be on a two-hour early release schedule every Wednesday. This will provide needed time for our elementary teaching teams to collaborate around learning and spend time with professional development.

- Secondary students choosing our Liberty Virtual School (100% online) option will continue to be offered this learning model during the second semester. For more information on Liberty Virtual School, visit the LVS website at www.lps53.org/lvs.
- Students in grades 6-12 that attend ESC/BEST/TLC classes will attend 5 days per week with an early release day on Wednesday.
- Following stakeholder feedback, there will be a focus on both increased learning on virtual learning days for hybrid students and an increase in engagement and learning on virtual Wednesdays.

SCHEDULE SUBJECT TO CHANGE

If guidance from local health officials eases up on restrictions due to lower exposure levels of COVID-19 in our community, LPS would consider increasing the number of days that students attend classes at a point during the second semester. Conversely, students may be shifted to a full-time virtual setting at any time if advised to do so by local health officials.
