

LPS Update
Wednesday, June 30, 2021

LPS Community,

Earlier today, we officially concluded our summer school session in Liberty Public Schools. This month, we were excited to welcome approximately 5,000 students into our summer program. Thank you to our entire summer school team for making this program another success! We are pleased to share that we had very limited COVID-19 disruptions during our summer school session.

As work now continues for providing a safe, healthy, and successful start for the 2021-2022 school year, please know that we will remain committed to being engaged with not only the Clay County Public Health Center, but also other local, state, and federal health officials. It is our full intention to provide five days per week of in-person learning for all students during the 2021-2022 school year. We are also planning for the continuation of our Liberty Virtual School for next year. Know that we will continue to consult and work with public health officials as we develop our plan.

In the meantime, we would encourage our families to remain engaged with our Return to Learn portal within our website. We will also plan to share a *2021-2022 Return to Learn Update* with staff and families in early August.

As always, never hesitate to connect with us at the building or district level. We hope you and your family enjoy the remainder of the summer and have the opportunity to find some time to refresh and recharge!

Thank you for your continued support of Liberty Public Schools, and have a great upcoming holiday weekend!
