

--sent 6/12/20--

LPS Families,

We hope you and your family have been able to enjoy your summer so far. Below, you will find several updates related to LPS events scheduled for later this summer.

- Plans are being finalized for our face-to-face summer school opportunities in July. Approximately 1,000 kindergarten through 8th grade students have been registered for this program, which will run July 8-31, 2020. Due to building capacity restrictions and staffing, the enrollment window for the face-to-face July session has been closed. For more information on our summer school program, [click here](#).
- Summer youth (K-8) camps hosted by our respective high school athletic and activity programs have been canceled. Face-to-face camps involving our high school students are scheduled to take place over the course of the remainder of the summer, adhering to health and safety precautions provided by local health officials.

Finally, our *School Re-entry Task Force* has continued work around planning for several scenarios for when students are scheduled to return to school on August 25, 2020. Be looking for a parent communication in the coming weeks that will include a questionnaire to be completed in which families will provide us with their preference on the scenarios presented at that time. As you know, this continues to be an extremely fluid event and one that can change rapidly. As part of the planning process, we remain in close contact with local health officials to ensure decisions will be made with the health and safety of our students and staff as the top priority.

We remain committed to providing you with regular updates as the summer moves along. As always, we thank you for your continued patience and flexibility as we navigate through these extremely unique times.
