

--sent 3/19/20--

LPS Families,

District administration has been working this week to finalize a plan that covers the essential functions that serves our learners and families for at least the next two weeks, beginning Monday, March 23, 2020.

A web page has been developed that is intended to be a one-stop-shop for you. This page can be accessed by [clicking here](#). You will notice five categories are included within it: 1) *Flexible Learning From Home* 2) *Meal Service for Online Learners* 3) *Event Cancelations and Postponements* 4) *Health Resources* 5) *Learning Resources*

A few highlights to point out from the website information:

**Extended Learning:** As we have shared in recent days, when students (K-12) left for spring break last week, they were sent home with their electronic devices and chargers. If by chance they did not make it home with them, we encourage you to reach out to their building principal, and accommodations will be made for them to get access to these items. The Extended Learning Plan for all students (preK-12) begins Monday, March 23, 2020. The web page provides a breakdown of work to be completed for each level. Click the link below to access the information that pertains to your learner:

[Elementary](#)

[Middle School](#)

[High School](#)

**Meal Services:** Liberty Public Schools is committed to providing access to breakfast and lunch meals for all LPS students while the District is closed during this period (beginning Monday, March 23, 2020). For those District families who are interested in securing breakfast and lunch while school is out of session, both pick-up and delivery plans have been established. To view this information, [click here](#).

**Event Cancelations and Postponements:** All activities and practices have been canceled through April 6, 2020. Families are encouraged to stay connected to [this page](#) for any district-related events that might be affected in the coming weeks. We are receiving questions from families about larger events in May. Currently, no decisions have been made regarding events beyond the next few weeks. However, as we have shared throughout this situation, this is a very fluid event and one that we continue to monitor and update.

**Health Resources:** Our LPS Health Services Team continues to be in close contact with local health officials. We will continue to share any necessary updates with families as they become available. To view the Health Resource page, [click here](#).

As is always the case, never hesitate to reach out to your child's individual building or anyone at the

District Administration Center. We will plan to continue to share with you any important information that pertains to Liberty Public Schools in the coming days. Please know that our thoughts continue to be with all of our families, and we look forward to seeing our students return whenever that time comes.

Thank you for your attention, and be safe!
