

## **LPS Update**

### **Thursday, August 19, 2021**

LPS Families,

It has been an exciting week as we have welcomed back our entire team in preparation for the official start of the 2021-2022 school year, which begins next Tuesday, August 24, 2021!

Following the most recent *Return to School Guidance* shared by the Clay County Public Health Center, we now have available our *COVID-19 Procedures and Protocols* document that will be in effect for the start of the 2021-2022 school year. This is a comprehensive document that has been developed by our COVID-19 Response Team in an effort to inform and educate our staff and families with the top priority being to provide in-person learning in a healthy and safe environment with minimal disruptions during the school year. To view this document, [click here](#). Additionally, we have made available results from our most recent staff/parent survey that was conducted earlier this month. This summary can be viewed on our *Return to Learn* webpage, which can be accessed by [clicking here](#).

In the event that our *COVID-19 Procedures and Protocols* document would need to be updated due to changes in school guidance provided to us by health officials, we will commit to sharing information with you in a timely manner.

As always, thank you for the patience and grace you have shown us throughout the past 18+ months while we have navigated the pandemic.

Have a nice upcoming weekend, and we look forward to seeing everyone back for the start of school on Tuesday, August 24, 2021!
