

--sent 7/22/20--

LPS Families,

We wanted to provide you with a reminder that the *LPS Student Census* window remains open, with the deadline for completion being extended through **Sunday, July 26, 2020**. This process is extremely important for us, as many decisions included in our *Return to Learn* plan will be made based on results submitted in this census.

As a reminder, if your family did not receive an email last week regarding our student census, please call the LPS Help Desk at 816-736-7078. A representative will follow-up next week with families who have not completed the census to ensure they are included.

Our team will be reviewing results next week and will provide additional information to families shortly thereafter. Thank you for your continued patience, flexibility, and support as we continue this important work in the midst of the pandemic.
