LPS Families,

Our Academic Services Department has been working over the last few weeks to discern how grades should be handled in the transition to online learning. We received significant feedback from students, teachers, and parents to inform our instructional practices during these unique times. Upon reviewing the feedback, and collaborating with our school administration, we have decided that it is in the best interest of all of our LPS learners to proceed with a “Hold Harmless” approach for the 4th Quarter. This means that students will be afforded the opportunity to improve upon their 3rd Quarter Grades and for the 2nd Semester receive no less than what was recorded at the end of the 3rd Quarter. This opportunity is extended to students so long as they remain engaged in the learning process and are putting forward their best effort.

Thank you for your patience and flexibility as we continue to navigate through these unprecedented times. We will be providing additional updates to you in the days and weeks to come.
